The School Board may admit a child who will reach the age of five years on or after August 1 and on or before October 15 of such school year if the parent or guardian requests such entrance and provides an affidavit stating that (i) the child attended kindergarten in another jurisdiction in the current school year; (ii) the family anticipates a relocation to another jurisdiction that would allow admission within the current year; or (iii) the child has demonstrated through a recognized assessment procedure approved by the School Board that the child is capable of carrying the work of kindergarten.

### Early Admission to Kindergarten:

The following assessment procedure for determining if a child is capable of carrying the work of kindergarten is approved and shall be made available to interested persons:

Early kindergarten enrollment exceptions may be made for younger children who are intellectually advanced. At a minimum, eligibility for the admission shall be based upon an analysis of the child's: (1) social and emotional development, (2) language and literacy, (3) pre-academic skills/ and (4) fine and gross motor skills.

The kindergarten early entrance assessment procedures are designed to identify and place in kindergarten those children who:

- b. Are deemed by parents or guardians as being intellectually advanced and likely to benefit from advanced grade placement; and
- c. Are selected on the basis of testing by professionals trained and certified to administer the assessments.

In the discretion of the Superintendent or designee, the School District's professional staff will administer the assessments.

The decision regarding early entrance to kindergarten requires careful consideration of all factors that affect kindergarten success with final determination to be made based on the recommendation of the District Evaluation Team, to be composed of such individuals as the Superintendent or designee determined appropriate. The academic, social,

and emotional readiness, as well as the student's physical development and well-being, must be weighed with institutional factors also considered. Sound decision making in the area of early entrance to kindergarten is dependent upon reliable information regarding a student's readiness and a thoughtful balancing of the myriad of factors implicated by the decision. Parents will be notified in writing of the results of the Early Kindergarten Entrance assessment and the determination of the District Evaluation Team in a timely fashion; not to exceed three weeks after the assessments are completed. **There is no provision in the policy for reevaluation, retest, or parental appeal to the district decision.**

Families who seek early admission of their child into kindergarten must obtain an *Early Entrance to Kindergarten Packet* from the School District Administrative Office.

Parents must fill out the Early Entrance Application Form and request Kindergarten Entrance Assessment.
