NEWS

March 15, 2024

Embryology Unit

Mrs. Wells from the Merrick County Extension Office, will be bringing eggs & incubators the last week of March. The students will learn about the development of chicks through this unit. Students will have the opportunity to candle eggs, learn the parts of an egg, and much more! We will send out adoption papers near the end of our unit for any families that would like to adopt chicks.

Thank you to Mrs. Wells

Reading - We have started reading Fairy Tales and are continuing to work on comprehension skills, such as summarizing, character perspectives, and finding themes in the stories we read. Thank you for making sure your child continues to develop a habit of reading nightly, despite many activities going on.

Language Arts - We are working with homographs, base words, affixes, and continue to sharpen our writing skills.

Math - We will proceed working with division by using properties and strategies to multiply and divide. We are also working on finding perimeter. Thank you for continuing to work with your children on their multiplication and division facts. As we near our state testing, fluency with their facts makes testing a better experience.

Science/Social Studies - In Social Studies, we will continue to learn about resources in our community and how our communities have changed over time. In Science, we will begin our next unit on how living things surviving in different environments.
