

PHYSICAL EXAMINATION REQUIREMENTS

Health Services Department
Central City Public School

The Board of Education shall require evidence of a physical examination by physician, physician assistant, or an advanced practice registered nurse within six months prior to the entrance of a child into the beginner grade and the seventh grade, or in the case of a transfer from out-of-state to any other grade of the local school; provided no such examination shall be required of any child whose parent or guardian shall object thereto in writing. A complete visual evaluation is required at the entry grade (kindergarten, or grade of transfer from out of state). A vision professional may also complete the required visual evaluation. Waiver forms are available in each school health office. School Law 79-214(3).

Each student participating in interscholastic athletics is required to have a complete physical examination (Nebraska School Activities Association requirement) to be given after May 1 of each year. This certifies that the athlete is qualified for the entire school year, May 1 through the following closing day of school, or the current school year.

Department of Health and Human Services Waiver of Physical Examination/Visual Evaluation Requirement

School Name (if desired)
Central City Public School

Note to Parent/Guardian: please complete and return to the school health office if you wish to have your child waived from these requirements as allowed by Nebraska law. If you have questions, please contact the school nurse or the school office. Thank you.

As a Parent/Guardian of - Student Name	Student ID#
School Name	Grade

I object to the following requirements for school entry as legislated in Nebraska Revised Statutes 79-214 and 79-220.

Check which apply:

- Physical examination by a licensed physician, physician assistant or advanced nurse practitioner within six months prior to school entry. *(Applies to: Kindergarten or beginner grade, out of state transfers to any grade, and seventh grade).*
- Visual evaluation by a licensed physician, physician assistant, advanced nurse practitioner, or vision professional (optometrist or ophthalmologist) within six months prior to school entry. *(Applies to: Kindergarten or entry grade and out of state transfer to any grade).*

I understand that I may request information to assist me in receiving information about reduced-cost vision examination as required by NRS 79-220.

I understand provisions in the law allow me to waive the requirement for this examination by my signed statement.

Nebraska Foundation for Children's Vision (www.NEchildrensvision.org)
BACKGROUND INFORMATION FOR PARENTS
REGARDING NEW VISION EVALUATION REQUIREMENT

New State Law Now Requires Vision Evaluations

Beginning with the 2006-2007 school year, students entering school for the first time, including kindergarteners and transfer students from out of state, will be required to provide proof of a vision evaluation within six months prior to the student's entrance.

The vision evaluation is required to test for amblyopia (lazy eye) and strabismus (misalignment of the eyes), which are two of the most common vision disorders in young children, as well as internal and external eye health and visual acuity. A certificate or form stating results of the evaluation must be signed by an optometrist, physician, physician assistant, or advanced practice registered nurse.

According to the Nebraska Foundation for Children's Vision, statistics show that 80% or more of all learning during a child's first 12 years depends on vision, yet one of every five children entering kindergarten has an undetected vision disorder significant enough to impact the child's ability to learn. Symptoms of vision problems often are not evident to parents or educators at early ages, the Foundation notes, and young children often cannot self-identify abnormal conditions.

Typical vision screenings test only for distance vision and are not designed to assess many of the common vision disorders in young children. The new state law will now help assure that more students get a broader assessment of conditions that could adversely impact their learning ability.
