Student Use of Artificial Intelligence Tools

As used in this policy, artificial intelligence tools (“AI Tools”) mean machine-based resources that use computer science, algorithms, large language models, and/or machine learning to perform tasks, answer questions, collect information, and respond to human-directed tasks, queries, and objectives. AI Tools include, but are not necessarily limited to, commercially-available resources like ChaptGPT, Gemini, Claude, Google Bard, and other similar programs.

AI Tools may be useful to student learning. However, students and staff must ensure that student use of AI Tools should focus on using such tools as a resource and for background material, rather than using the AI Tools to complete the assignment. Therefore, AI Tools may only be used by students in accordance with the following requirements:

1. Students may not use AI tools on any assignment, test, or project unless the staff member has given express permission for the student to do so. Staff Member permission to use an AI tool on one assignment does not carry over to other assignments. Unless an individual teacher affirmatively communicates to students that AI Tools may be used for a specific assignment, then AI Tools may not be used. Individual teachers staff members will decide for each individual assignment the extent to which students may use AI Tools for such assignment. Teachers are encouraged to make such a decision in advance of students being given the individual assignment in question.

1. Teachers will communicate to all students responsible for completing an assignment the extent to which such students may use AI Tools in connection with such assignment. Teachers will endeavor to include in such communications examples of permissible and impermissible uses of AI Tools.

2. If a student uses any AI Tools in connection with a school assignment, the student must comply with the following:

- a. Tell the teacher The student must explicitly disclose to the teacher in writing that the student used an AI Tool and identify the specific AI Tool used.

- a. Give In any student work (whether hard copy, electronic, digital, or otherwise), the student shall give proper attribution to the specific AI Tool(s) used to the same extent that students are expected to give proper attribution to other sources of

information such as books, texts, encyclopedias, secondary sources, and other traditional media. Such attribution may include, but is not necessarily limited to, accurate quotations, citations, footnotes, endnotes, and/or bibliography entries.

b. Never copy and paste In no instance may the output from one the or more AI Tools be copied and placed within the student's work as if the student wrote such section himself or herself. For example and not limitation, students may not outsource the organization or the writing of any written work to any AI Tool.

3. Students may never use AI Tools to:

- a. Cheat on any assignment, test, or quiz;
- b. Help answer questions on a test or quiz without staff member permission;
- c. Make or share deepfakes or fake images, audio, or video of any real person;
- d. Make or share sexual, nude, or intimate images of any real person—even if the image is fake or AI-made;
- e. Bully, harass, threaten, intimidate or impersonate any person;
- f. Place another student or staff member name, photo, voice, or personal information into an AI Tool without staff member authorization;
- g. Use AI Tools to bypass accommodations, content filters, or school security.

4. A student may use AI Tools as an accommodation if his/her IEP team or Section 504 committee has approved use of the tool. The student must disclose the use of AI Tools to the staff member grading the assignment.

5. A student's failure to meet the requirements stated in this policy will constitute a violation of the district's prohibitions against cheating plagiarism and/or academic dishonesty, including but not necessarily limited to such prohibitions stated in the Student Handbook, which violation will subject the student to discipline up to and including expulsion.

6. The student requirements stated above are the minimum requirements for any student assignment. An individual teacher may impose more stringent requirements for any specific academic assignment or coursework.
