What We Are Learning

Math- We will spend this month finishing our perimeter unit before we move into our measurement unit. Concepts learned in our measurement unit will include metric and standard units. We will focus heavily on length, liquid capacity, mass, and weight. We will also spend a great deal of time learning about elapsed time.

Reading/Writing- Our stories will focus on Myths/Dramas and Poetry. We will be working on a variety of writing activities.

Grammar/Spelling- Adverbs and prepositions will be the main focus for grammar. Spelling practice will consist of vowel team words and r controlled vowel syllables.

Science-We will be concluding our weather unit. We are most excited to welcome Mrs. Wells into our classroom at the end of this month to learn about embryology.

Social Studies -The students will be working with a budget. They will make choices as to what to purchase, what to give up, and what to save.
