**AWARD WINNING
CHEESE CURDS!**

i **Natural vs. Processed Cheese:** Natural cheese is a cheese that is made directly from milk. Processed cheese is a mass produced product made of one or more types of cheese that have been heated and mixed with emulsifiers, colorings, flavorings, etc., primarily to retard spoilage and enhance spreadability at a reduced cost. In order to provide the highest quality products to our customers, 4 Seasons chooses to use only natural cheeses in our gift boxes and cheese cups.
